HIGGANUM, CT 06441

Inspection
Type: ROUTINE INSPECTION
Date: APR-18-2003

2.75

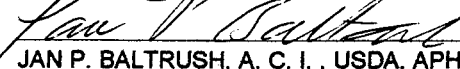

RECORDS: DEALERS AND EXHIBITORS.

Each exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning each dog or cat purchased or otherwise acquired, owned, held, or otherwise in his or her possession or under his or her control, or which is transported, euthanized, sold, or otherwise disposed of by that exhibitor. The records shall include any offspring born of any animal while in his or her possession or under his or her control.

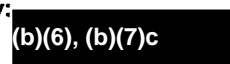

- (i) The name and address of the person from whom a dog or cat was purchased or otherwise acquired whether or not the person is required to be licensed or registered under the Act;
- (ii) The USDA license or registration number of the person if he or she is licensed or registered under the Act;
- (iii) The vehicle license number and state, and the driver's license number and state of the person, if he or she is not licensed or registered under the Act;
- (iv) The name and address of the person to whom a dog or cat was sold or given and that person's license or registration number if he or she is licensed or registered under the Act;
- (v) The date a dog or cat was acquired or disposed of, including by euthanasia;
- (vi) The official USDA tag number or tattoo assigned to a dog or cat under Secs. 2.50 and 2.54;
(Also refer to Policy 13, Microchip Implants)
- (vii) A description of each dog or cat which shall include:
 - (A) The species and breed or type;
 - (B) The sex;
 - (C) The date of birth or approximate age; and
 - (D) The color and any distinctive markings;
- (viii) The method of transportation including the name of the initial carrier or intermediate handler or, if a privately owned vehicle is used to transport a dog or cat, the name of the owner of the privately owned vehicle;
- (ix) The date and method of disposition of a dog or cat, e.g., sale, death, euthanasia, or donation.

During the inspection it was noted that the documentation that accompanied the newly acquired dogs was not complete. Driver's license number was being documented. However, the seller's vehicle plate #'s were not. Both numbers need to be obtained on all animal acquisitions.

To Be Corrected By: May 3, 2003

INSPECTION REPORT

3.1 (c)

HOUSING FACILITIES, GENERAL.

The surfaces of housing facilities—including houses, dens, and other furniture-type fixtures and objects within the facility—must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled. Interior surfaces and any surfaces that come in contact with dogs or cats must:

- Be free of excessive rust that prevents the required cleaning and sanitization
- All surfaces must be maintained on a regular basis. Surfaces of housing facilities—including houses, dens, and other furniture-type fixtures and objects within the facility—that cannot be readily cleaned and sanitized, must be replaced when worn or soiled.

1. The radiator to the right of the outside doorway, within the dog room, has begun to rust. Due to the fact that this is in the dog room and they have direct access to it, the rust needs to be removed and the radiators need to be repainted or replaced.

2. At the present time a bathroom is being used as the food prep area. However, the shower stall in this bathroom has some water damaged wall board - just above the shower head. Due to the fact that the food bowls are cleaned in this area the wallboard needs to be repaired.

To Be Corrected By: May 18, 2003 for Items # 1-2

4. There is a rusty pan in one of the dog crates. This pan can not be readily cleaned or sanitized. Therefore, the pan needs to be replaced.

5. This facility is presently using 2 metal racks, in the shower stall, that house the draining / drying food and water receptacles. However, these metal racks have begun to rust. Therefore, they must be replaced or addressed.

To Be Corrected By: April 19, 2003 for Items #4 - 5

3.2 (d)

INDOOR HOUSING FACILITIES.

The floors and walls of indoor housing facilities, and any other surfaces in contact with the animals, must be impervious to moisture.

There are areas of unsealed / unpainted, plaster walls in the dog room. All surfaces need to be maintained so that they can be readily cleaned and sanitized. These areas need to be addressed.

To Be Corrected By: May 18, 2003
